Senior Pastors Message

In Matthew 14:22-33, Jesus instructed His disciples to go to the other side and He went to pray. If the disciples remembered and believed in all of Jesus' supernatural acts and that they did not go on their own but were asked to go by the Lord, they would have known that they were safe. We are always safe in His hands.

He did not forget them on the sea but started going to them in the dark, the night time. The night time is a difficult time in real life because nothing can be seen clearly, but Jesus will come for us even in those tough times.

Are you in the night time in any area of you life today? Remember that He will come for you if you ask him to. He is God and nothing is too hard for Him. He walked on water to get to them. He never leaves us in doubt or darkness. He loves to reveal Himself to us. What is that fear in your life? Jesus is here to reassure you.

Cast that burden on Him because he cares for you. Jesus is always willing and ready to help us. He is closer to us than we know. We can do nothing without Him. He is always our present helper. He is always ready to give us His hand like a friend and together we can walk to a place of safety.
